EDUCATION

University of Ghana (UG)

Programme: Bachelor of Science, Computer Engineering

Expected September 2028

Academic Standing: First Class (CGPA: **4.00/4.00**)

Relevant courses: Python, Database Systems Design, , C++ Programming, Linear Algebra, Discrete Mathematics, Calculus I and II

Presbyterian Boys' Secondary School, Legon (PRESEC-Legon)

April 2022-September 2024

Programme: General Science

Academic Standing: **7As, 1B** (WASSCE), Final GPA: **3.95/4.00**

WORK EXPERIENCE

Intern National Information Technology Agency (NITA), Ghana

November – December, 2025

- Built a full-stack client booking website using HTML, CSS, JavaScript, and Node.js
- Configured Cisco routers and managed LAN/WAN networks including IP addressing and subnetting
- Reimaged and provisioned laptops with OS installations for staff use

AWARDS AND ACHIEVEMENTS

Research Scholar, 2023 MISE Summer Research Program

Aug 21, 2023,

Silver Medalist, Eskom Science Expo 2023

October 2023

PROJECTS AND RESEARCH EXPERIENCE

Using Dimensionality Reduction Algorithms to make an Accurate representation of the SARS-CoV-2

- Collaborated with Matthew Scicluna (PhD researcher, MILA) to develop an ML-based alternative to traditional phylogenetic trees for representing SARS-CoV-2 genomic data
- Implemented PCA and t-SNE in Python to produce accurate low-dimensional representations of viral sequence relationships

Nkwa Hia — Real-time Emergency Health Logistics | Claude Builders Club Hackathon

- Built a real-time emergency health grid across 59 hospitals in Greater Accra, tackling Ghana's No-Bed Syndrome
- Live hospital capacity heatmap (green/yellow/red) refreshed every 30 seconds
- Gemini AI dispatches ambulances in seconds by scoring hospitals on capability, distance, and live bed availability
- AI Transfer Advisor guides clinical staff on patient movement across facilities in real time

Nudge — AI Email Monitor

ASANTE GABRIEL KWAKU

asantegabrielkwaku@gmail.com | +233 59 847 9190 | [Gabriel Kwaku Asante\(LinkedIn\)](#) | [Gabriel Kwaku Asante \(GitHub\)](#)

- Built an AI agent that monitors Gmail and delivers WhatsApp message summaries ranked by importance with direct email links
- Read-only Gmail access — no emails sent, no data stored, only AI-generated summaries
- Runs 24/7, surfacing critical emails even when the user is offline

LEADERSHIP EXPERIENCE

Course Representative, Computer Engineering, Class of 2028

January 2025 – Present

- Elected to represent a cohort of 50+ Computer Engineering students to faculty and departmental administration
- Serve as primary liaison between students and lecturers, escalating academic concerns and communicating departmental updates
- Ensure student interests are heard and addressed within the department's decision-making processes

Public Relations Officer, Engineering students Association of UG (ESUG)4

November 2025-Present

- Co-manage ESUG's social media presence, driving publicity and visibility for the University of Ghana School of Engineering
- Publish weekly announcements, event promotions, and campaigns to keep the student body informed and engaged
- Contribute to building the association's public profile across platforms, growing awareness of engineering activities and opportunities at UG

VOLUNTEER ACTIVITIES

- Tutor, Children Service, Bokorbokor Preaching Point

November 2025 - Present

SKILLS AND INTERESTS

Technical Skills: Python, SQL, C++, MATLAB, Excel, Matplotlib,

Interests: Data Science, Database Design, Robotics, Quantitative Finance, Machine Learning, Artificial Intelligence.

Currently Learning: OpenCV
